

**Eastern Kentucky University and the Chemical Stockpile Emergency Preparedness Program (CSEPP)**

**Eastern Kentucky University (EKU) Richmond Campus and Madison County facilities lie in several Zones (2E, 2D, 1C, and 3D).** In order to maintain EKU continuity of operations, and to make a safe community response as fast as possible, we have extended the concept of an automatic, default, Protective Action Decision (PAD), used at Model Laboratory School and Burrier Child Development Center, of Sheltering In Place (SIP), to all EKU facilities in Madison County. On Richmond Campus (Zones 2E and 2D), individuals should go to an Enhanced Shelter In Place (ESIP) Building, without delay, and activate their Collective Protection Systems (CPS). At other locations, like Meadowbrook Farm (Zone 1C) and Central Kentucky Regional Airport (Zone 3D), individuals should Shelter In Place using SIP Kits. The prompt to Shelter In Place should be any mass notification made, about a community-wide hazardous materials incident, through the Advisor Alert Radios (Voice Message), the Outdoor Siren System (Alternating High/Low Wail), and/or the EKU Emergency Notification System Alert Methods. Updated information, such as exactly where a chemical plume is anticipated to go, what zones are truly affected, and when the plume is projected to arrive, will be disseminated when that information becomes available.

**Primary Protective Action Decisions:**

<b>SHELTER IN PLACE</b> Automatic Default PAD	<b>All EKU Facilities should Shelter In Place (regardless of what zones are affected)</b> <b>Richmond Campus ESIP Buildings: <u>Alumni Coliseum, Combs Building, Model Gym, Perkins Building, Thompson Hall, University Building, and Whitlock Building</u></b> <b>Other locations should Shelter In Place using SIP Kits</b>
<b>EVACUATE</b> If Directed To	<b>EKU Madison County Facilities would Evacuate to their Pre-Determined Locations:</b> <b>2E to Jacobson Park in Lexington</b> <b>Burrier to The Lexington Center in Lexington</b> <b>Model to Dunbar High School in Lexington</b> <b>2D to North Laurel High School in London</b> <b>1C to Powell County High School in Stanton</b> <b>3D to Garrard County Middle School in Lancaster</b>

Following Shelter In Place there are two likely secondary Protective Action Decisions;  
 (1) Exit Shelter In Place or (2) Relocate to a decontamination area or designated reception area.

If both Richmond Campus zones are actually affected, both zones will take the same secondary protective actions, if possible, and relocate to the same decontamination and/or relocation area. The pre-designated location for Zone 2E to relocate to is the Jacobson Park in Lexington. This is the most likely area for both zones to relocate to. (*Burrier and Model Schools have different evacuation/relocation locations specific to daycare and school populations*).

Although all campus facilities in all zones took the same initial protective actions, it may be deemed necessary for facilities in different zones to take different secondary protective actions. Personnel and students in one zone may not have truly been affected, and therefore may be told to exit Shelter In Place and stay where they are. Personnel and students in another zone, which may have been affected, may be given a more cautionary set of instructions, and be told to relocate to a specific location as determined by the Madison County Emergency Management Agency. For example, Zone 2E may be instructed to exit Shelter In Place and stay, while Zone 2D may be instructed to relocate to North Laurel High School along with other members of the populace in Zone 2D.

**Possible Secondary Protective Action Decisions:**

Sheltered In Place	Possible Secondary Actions		
Zone 2E	Exit and Stay	Both Zones Relocate to Jacobson Park, if possible, or Other Same Area As Directed	Exit and Relocate to Jacobson Park, or Other Location
Zone 2D	Exit and Stay		Exit and Relocate North Laurel HS
Burrier	Exit and Stay	Exit and Relocate to The Lexington Center	
Model	Exit and Stay	Exit and Relocate to Dunbar HS	
Zone 1C	Exit and Stay	Exit and Relocate to Powell County HS	
Zone 3D	Exit and Stay	Exit and Relocate to Garrard County MS	

Note:

- EKU students, faculty, staff, and visitors travel freely between Zones 2E, 2D, 1C, and 3D.
- There are no physical barriers between the zones or facilities in Madison County.
- Road blocks may be set up to divert travelers away from affected zones.
- EKU’s population, of about 19,000 individuals, occupy multiple zones.
- EKU’s population fluctuates daily.
- Zone 2E contains the most heavily populated area of the EKU Richmond Campus.
